

第六届交通基础设施与材料国际会议(TIM 2023)

The Sixth International Conference on

Transportation Infrastructure and Materials

Beijing, China July 18-20th, 2023

New Development in Sustainable and Resilient Transportation

<https://www.ictim.cn>

Important Dates

June 05, 2023, Abstract or Extended Abstract Submission Deadline

June 12, 2023, Abstract Acceptance Notification

July 18-20, 2023, Conference Registration and Sessions

Conference Topics

- High-Performance and Sustainable Infrastructure Materials
- Resilient Infrastructure and Materials Adapting to Climate Change and Extreme Events
- Intelligent Transportation System
- Bridge Engineering
- Transportation Geotechnics
- Smart Infrastructure for Connected and Automated Vehicles
- Multi-Modal Transportation Planning and Management
- Advances and Emerging Technologies in Transportation Infrastructure Engineering
- Others

Organizers

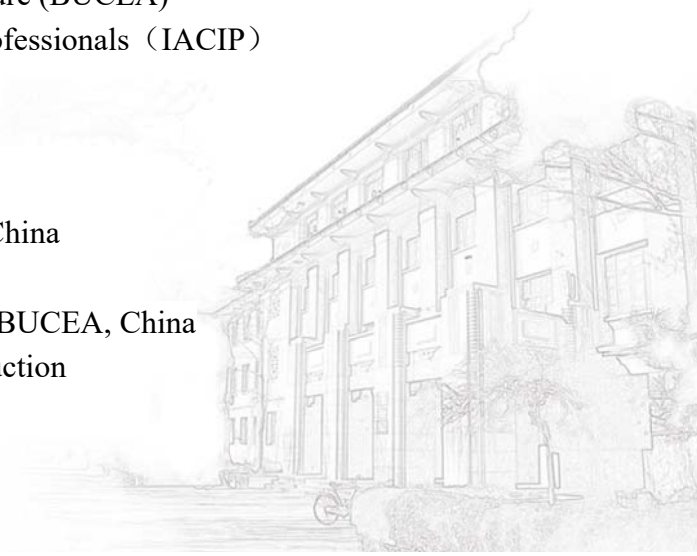

Beijing University of Civil Engineering and Architecture (BUCEA)

International Association of Chinese Infrastructure Professionals (IACIP)

China Highway and Transportation Society (CHTS)

Supporting Organizers

- National Center for Materials Service Safety, China
- South China University of Technology, China
- Multifunctional Shaking Tables Laboratory of BUCEA, China
- Beijing Urban Transport Infrastructure Construction

Engineering Technology Research Center, China

International Advisory Board Co-Chairs

Zhang Dayu, Beijing University of Civil Engineering and Architecture, China

You Zhanping, Michigan Technological University, USA

Organization Committee Co-Chairs

Ji Jie, Beijing University of Civil Engineering and Architecture, China

Wang Hao, Rutgers University, USA

Liu Chuanlei, China Highway and Transportation Society, China

Technical Committee Co-Chairs

Xu Shifa, Beijing University of Civil Engineering and Architecture, China

Liu Jenny, Missouri University of Science and Technology, USA

Conference Language and Publications

The official language of this conference is English

High quality papers will be recommended for publication in SCI journals

Conference Scope

The International Conference on Transport Infrastructure and Materials (TIM) sponsored by the International Association of Chinese Infrastructure Professionals (IACIP) is an international academic event held annually in the field of transport infrastructure and materials. The past TIM conferences have been organized by Chang'An University, Qingdao University of Technology, Hebei University of Technology, Shandong University and Shangdong Jiaotong University, and Changsha University of Science and Technology.
