

The 7th Chinese-European Workshop on Functional Pavement (CEW 2023), co-organized by the University of Nottingham, Aston University, and Southeast University, has completed its agenda in Birmingham, UK, after two days (2-4 July 2023) of lively exchanges and discussions. The CEW 2023 includes three keynote speeches (delivered by Profs. Markus Oeser, Linbing Wang, and Andrew Dawson), eight in-person sessions, and two online sessions. The conference topics consist of the emerging technologies on the next-generation of functional pavements, the digital and information technology-oriented pavement design, construction, and maintenance, etc. The organizing committee would like to express their deepest gratitude to all the participants for their support. The Harbin Institute of Technology (HIT) will organize the next CEW conference and we look forward to meeting you all in HIT!
